

## Heat Guns

### **PHG 630 DCE**

The universal hot air gun with maximum operating comfort

[Go to product](#)

## Key product features

- Universal tool with 2000 watts for stripping paint and varnish, for shaping and shrinking with hot air. Suitable for soldering, welding and tin-plating work
- Infinitely variable temperature setting with cold-air setting (50-630°C) via display
- Bosch Constant-Electronic: the preset temperature is kept constant electronically – e.g. for particularly precise soldering and welding work

## Other product advantages

- Control of the airflow in 3 stages
- Support surface for bench-mounted operation
- Removable heat shield for work in tight spots
- Closed handle with softgrip for convenient and safe working

**Part number:** 060329C737

**EAN code:** 3165140288446

Heat Guns

## PHG 630 DCE

### Technical data

---

**Power input: 2.000 W**

**Temperature: 50 – 630 °C**

**Airflow: 150 / 300 / 500 l/min**

**Machine weight: 0,9 kg**

### Functions

---

#### **Power input**

2000 watts

#### **Thermal stop**

Automatic shutdown in the event of overheating

#### **Constant Electronic**

Constant power for precise work

#### **Air flow control**

Workpiece-specific control of the air flow

#### **LCD display**

Continuously variable temperature setting

#### **Softgrip**

Low-fatigue working, safe handling

### Functions

---

Thermal stop

Bosch Constant Electronic

Display

Softgrip
