

Cross line laser with
plumb function

PCL 20 Set

Cross lines, single lines and
plumb function – easy and
precise

[Go to product](#)

Key product features

- Cross lines, single horizontal or vertical line, inclined line and plumb function for transferring a point from the floor to the ceiling
- Automatic self-levelling in a few seconds – exact, fast working without manual alignment
- High-quality, bright laser diodes for particularly clearly visible laser lines

Other product advantages

- Large working range up to 10 m
- Easy and intuitive operation
- Integrated 1/4" thread – fits all conventional tripods
- Softgrip for a better and more comfortable hold
- Protective case and batteries included

Comes complete with

- Batteries
- Protective case
- Wall mount
- 1.5 m aluminium tripod

Part number: 0603008201

EAN code: 3165140471626

Cross line laser with plumb function

PCL 20 Set

Technical data

Working range, approx.: 10 m

Laser diode: 635 nm

Laser class: 2

Self-levelling time, typ.: 4 s

Levelling range: $\leq 4^\circ$

Accuracy: $\pm 0,5$ mm/m

Tripod thread: 1/4"

Weight: 0,6 kg

Battery: 4 x 1.5 V LR6 (AA)

Functions

Laser technology

Maximum precision when working

Laser function: cross lines

Perfect wall design at a right angle

Laser function: vertical

Precise vertical alignment

Laser function: horizontal

Precise horizontal alignment

Adjustment range

Easy positioning of the work height

Functions

Selectable laser function

Plumb function

In a set with a tripod
